

Translation Firms

Translation is the act of transposing *written* materials from the source language (e.g. Spanish) to the target language (e.g. English). The Office of Language Access (OLA) has identified the following translation firms to assist you in translating written document.

Please note that the OLA does not make any recommendations relative to vendors. There are many other OPI and interpreting vendors other than the ones listed here. This may include certified and registered Louisiana court interpreters listed on the OLA's [website](#).
